Treat Yourself to the Ultimate Regeneration

Refresh your Spirit at the Ultimate Holistic Spa Resort... The Pueblo Bonito Pacifica at Cabo San Lucas

Imagine yourself at the only resort along a 3 mile stretch of beach on the Pacific Ocean where, during the winter, the whales get so close you can hear them spout. Then imagine a place where the tranquility of the luxurious spa extends through the entire resort. That's the Pueblo Bonito Pacifica!

The moment you step into the lobby upon arrival you know that you are somewhere special! Your senses are greeted by the aromatic lavender that permeates the air.

At most spa resorts, the tranquility of the spa ends as you exit. The resort, away from the spa, is hectic: the loud music around the pool or the busy pace at the restaurants and lounges. Trade that for soothing music at the pool and in the wine bar or cocktail lounge. And relish the cordial welcome in the restaurant while you choose from the fresh offerings of the spa menu.

If quiet surroundings and spa-type selections for your meals sounds a bit boring, think again! The ambiance is warm and the staff members (and fellow guests) are extraordinarily friendly. The dining is scrumptious with fresh seafood and great steaks. And, when you are ready for some lively fun, it's just a short trek from the resort. A new Jack Nicklaus championship golf course is just across the road. The shops, restaurants and nightclubs of downtown Cabo San Lucas is a 10 minute shuttle ride away and, for a lively evening of nightclubbing, sister resorts Pueblo Bonito Sunset Resort is a 5 minute shuttle ride away and Pueblo Bonito Rose is downtown.

The Pacifica presents unique atmosphere of rest, relaxation and romance.
